

HARMONIAN

1926

FOREWORD

DURING the school year of 1925-26, the Harmony High and Farm Life School took many steps forward. Notable among the achievements was the completion of the gymnasium, — a building made possible by sacrifices on the parts of many former students of the school. The building of a baseball park around the best athletic field in this part of the state, additional equipment for the various departments, improved grounds, and other advances have been made.

This annual is the first one produced by the school. It, too, makes an advance step in school progress. The editorial staff and the business managers attacked an unknown problem when they tackled the job. But they worked hard to make this little book possible. In seeing it finally made possible the staff which worked so diligently wishes the first word to be an expression of hope that the work on succeeding annuals will be made less difficult because of what has been done this year. And the same staff commends this effort to you with the hope that you may enjoy it and that the boys and girls who get copies now will in many years to come enjoy turning the pages of "THE HARMONIAN" and recalling happy school days at old Harmony High.

R. H. LANKFORD

Dedication

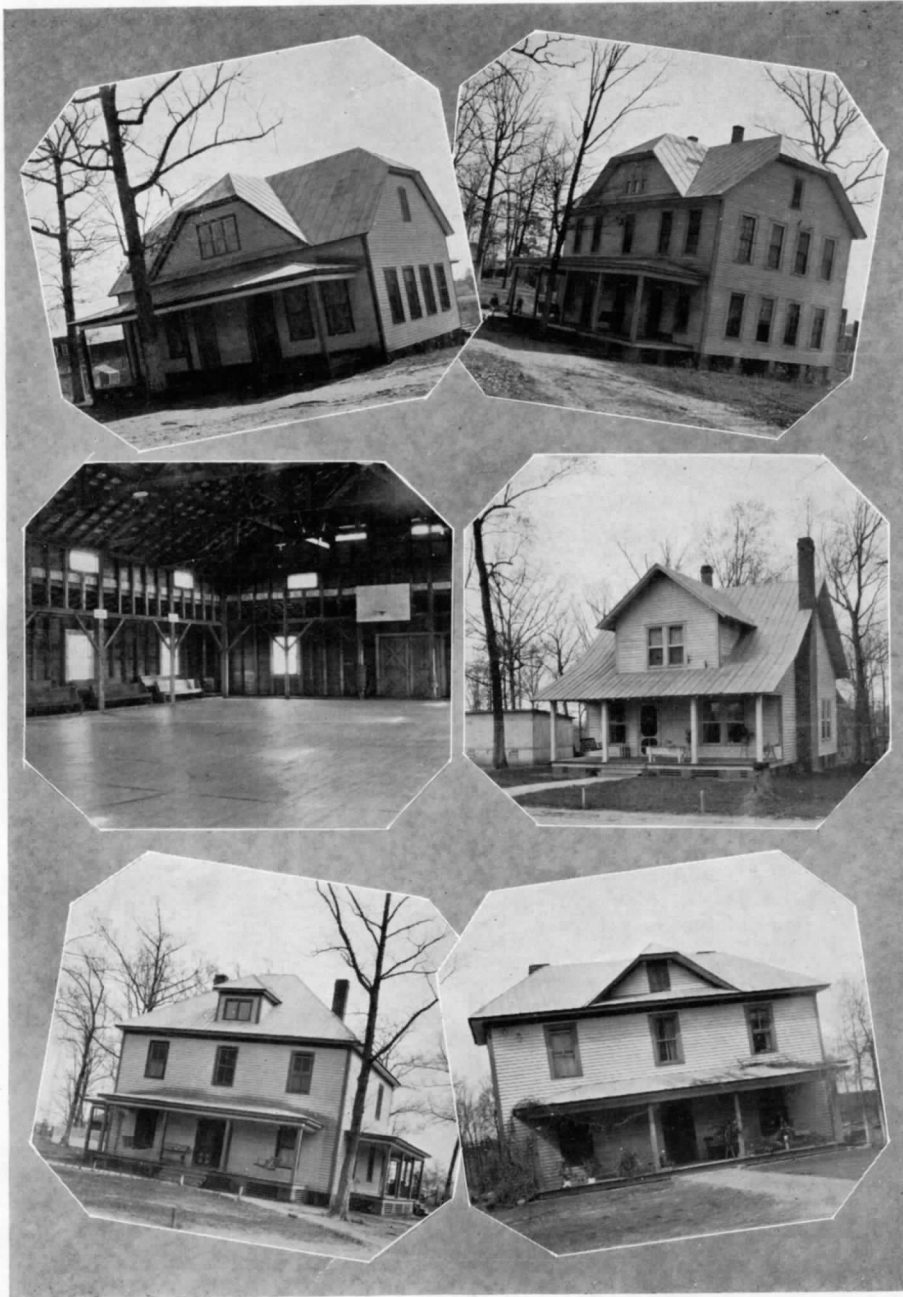

We, the members of the class of '26 take pleasure in dedicating our first annual to "Professor" R. H. Lankford. In the realm of our school activities, the one outstanding influence that has molded our lives has been wielded by the man to whom we dedicate this annual. For eleven long years he has given his time, his energies, and his talents to the building of this school. His life is a benediction to us all.

SENIOR SONG.

Tune of "Melody in F", by Anton Rubenstein.

Seniors, dear Seniors, our voices we raise,
Singing together of happy days;
What joy, what bliss to recount friendships true,
Old friends surpassing new!
When days have passed and the years have flown by,
We'll stand together, thus may we die;
To Alma Mater, and friends, ever true—
Classmates, we trust in you!
Though troubles come, and disaster hopes assail,
Yet, when thus united, ambition cannot fail!
O, Alma Mater, we pledge you our trust!
May we, through life's journey be upright and just!
Seniors, dear Seniors, our voices raise,
Singing together of happy days;
To Alma Mater, to friends—and to you—
May we always be true!

—ROBIN WOOTEN.

CLASS POEM

The years have gone by like passing winds,
And now we are near the zone
That leads to the path where life begins,
Where many seeds are sown.

As we go out into life's garden,
We go in hopes arrayed;
Though our paths may cross and harden,
In life we shall be unafraid.

The seeds of kindness and patience rare
We've sown with the seeds of truth;
Service and Honor may blossom there,
If nurtured in early youth.

As a class we bore joy and sorrow;
As we part let us keep in mind
Our motto, and on the morrow
Take the tasks our hands may find.

Though our gardens grow many a tare,
Alma Mater will still remain,
And the love which all of us share
Will in memory revive again.

The future looks cheerful and bright;
When disaster our hopes assail,
We will steadfastly do what is right,
And know that we cannot fail.

—CLASS POET.

SENIOR CLASS HISTORY

In the year of nineteen-twenty-two, we, the class of twenty-six, began our career at Harmony High School. We were fifty in number. Although our class has lost several members and gained several, the number still stands at fifty.

Our class has shown its interest in the work by records made; all have realized the importance of advantages and opportunities for advancement offered here; all have taken active parts in the Literary Societies; five of our members have been president of the Literary Societies during our stay here.

At the beginning of our freshman year, we elected Alma Bradford, who is not a member of our class today, president of our class, and selected our motto and colors. Our motto "Forward" is expressive of the desire of each member to be progressive in whatever life's work each may undertake.

Every year it has been the custom for each grade to present a play sometime during the school year. In our freshman year, we presented the play "Mrs. Tubbs of Shantytown"; in our Sophomore year, "When a Fellow Needs a Friend;" in our Junior year, "Out of Court;" and in our Senior year we presented "What Happened to Jones."

In the field of athletics our class surpasses any class that has preceded us. In boys basketball we boast of Brown, Little, Howard, Davis, and McLain. In girls basketball we boast of Hudspeth, Howard, King, Jurney, Sills and Essic.

Although our class has won only one debate, four of our members have won medals, which we consider just as high an honor. In debating we have been represented by Dessie Howard, Opie Crater, and Cecil Grier, Robin Wooten, Clive Wooten, Kenneth Watts, and Laura Morrison.

We have enjoyed the hospitality of a former teacher and of a Home Economics class at parties during the past two years.

As students we have probably had our shortcomings but I will venture to say that the class average is equal to or surpasses that of former classes.

Now that our span of four years is closed we look back and see our fortunes and misfortunes. Probably ambitions are unrealized. Yet we look forward today as we did in twenty-two to the higher things of life. The knowledge acquired is but small compared to the life inspired. The scene being ended, we make our exit.

CLASS HISTORIAN.

SENIOR CLASS PROPHECY

Now it was predestined before it was decreed that the future of the class of 1926 should be given unto the hands of this your prophet that he might dream dreams and behold visions of the glories yet to come, but a cry of weakness did ascend. The spirit of genius did not descend and flood his soul with mystic powers, nor did a fair and lovely sprite appear to draw the curtain that your prophet might peer into the misty beyond in search of the destinies of the class of '26.

It was then that he found it necessary to have recourse to his theory of life: "The future is but the child of the past and the present." Forecasting then the harvest of the future by the seed-sowing of the past and the cultivating of the present, he makes the following deviations:

Our beloved president, David White, with dignified bearing and incredible energy will persevere until he occupies the chair of modern languages in Princeton University. In this station of life he will be worthily assisted by sedate Pearl Norris.

"By their works shall ye know them." Competent Jewel Myers and Myrtle Gantt and will devote their lives to teaching the "heathen Chinese," and to blazing for them the dim, dark trail through the unknown forest of life.

Years of practice in side-stepping from the noose of designing females, Beveridge Renegar will shine as a toreador, headquarters, Mexico City.

Roy Renegar, the Leviathan of our class, shall draw the applause of spectators while he brings renown to himself and honor to Columbia University as a football star.

Following a natural inclination, Bill Cheshier, will offer his services to the patriots of Mexico. They will be gratefully accepted. His duties will be to start first class revolutions at regular intervals, or as needed.

Clive Wooten will wander as a derelict on the sea of life, until he is restrained by the warm love of Margaret Bell, after which they will enjoy the applause of nations as opera singers.

The allurements of the roaring speedway and the smell of castor oil fumes will be too much for Robie Finger and Wilson Thomas to resist. Riding in Dusenburg Specials they will establish new speed records for the Indianapolis sweepstakes. Alice Goodman, as manager of this duet, will make good and will sign her name Mrs. Wilson Thomas.

In Washington we shall find Coetta Trivette and Nonnie Shaver, governesses, in elite society circles. They will always turn deaf ears to domestic entanglements. On the other hand Mary Norris' and Thelma Godby's opinions on interior decorations will not be challenged.

In years to come we shall find in a splendidly equipped hospital, Nellie King, a well-trained and efficient nurse.

We soon shall hear of Cecil Grier through the columns of "The Asheville Citizen" on which he shall be a distinguished editorial writer.

Dessie Howard will prepare herself for the noble work of preaching, but later she will realize that she is destined for law.

The HARMONIAN

Ena Myers, who has always had a desire to travel abroad, will have her choice when she receives her appointment to France as the first "ambassadoress."

Albert McLain, prosecuting attorney of New York, will meet his Waterloo when duty calls him to prosecute Opal Essic, his fiancée, for breaking speed laws in a high-powered racing car.

Glenn Howard, after finishing his course at the Atlanta Dental College, will locate in Raleigh where he will immediately spring into popularity, especially with the fair sex.

The business world will claim ardent Kenneth Watts, and in a few years he will stand unparalleled among the financial wizards of Wall street.

Before many years have passed, Ruth Hudspeth, as "Miss America," will represent the United States in the world's beauty contest at Paris; she will devote her spare time to writing discourses called "Love Letters."

Opie Crater will raise "Cain" in the mountains of Kentucky—(wrong, dear reader, he is not a farmer but a district prohibition agent.)

With a fixed and steady purpose, Swannie Journey will drive straight to the goal, after finishing her course in music at the New England Conservatory, she will teach at Merideth.

Robin Wooten will attain marked success as a writer of "Literary Gems." His masterpiece shall be entitled "She."

Sometimes we shall read of Hal Brown, with a batting average of .380, occupying the mound for the Pittsburg Pirates, and contesting for the World's Championship.

Anyone reading "The San Francisco Tribune," in a few years, will see this announcement, "A Southern Beauty—now playing at the Columbia"—stellar role played by Betty Turbyville.

Richard King will some years hence be a model for farmers of Western Carolina.

Robert Little will add further honors to himself and his profession as athletic director of Duke University.

After making his fortune on stocks and bonds, Hal Bell will devote himself to travels. As traveling companion he will have Kate Windsor. Both will write their names "Bell."

Virginia Brady will bring distinction to herself as president of the North Carolina College for Women.

While spending your vacation in later years, be sure to stop at Hotel Harmonia, and here you will find madam O'day Jones, owner and manager.

As a composer of classical music, Ray Bohannon will have no peer. Thousands will be benefited by having heard her beautiful piano music, while lovers of voice will be no less delighted with the melody of Mary Goodwin's singing.

The HARMONIAN

Daisy Blackwelder will have charge of the domestic science department of a bungalow in Orange City, New Jersey, while French Cowan, the man of the house, will give his life to doing scientific research work.

We shall notice in later years in the newspapers, an account of the grand receptions given by Bessie Cain; while Laura Morrison will have the honor of having a seat in the National Senate.

As a diplomat, Ben Hill will mount the ladder of fame by leaps and bounds; when international disputes arise, depend on Ben to be on the job to pour oil on the troubled waters.

Gales Woodside, as a gentleman farmer of the blue grass section of Kentucky, will manipulate the strings of the state legislature at Frankfort.

Edgar Harris, secretary of the Navy, believes in efficiency, will soon have a fleet of ships of the first water and second to none. All homage will be due him.

Earl Cooper, after finishing his textile course at State College, will become a textile magnate, operating a chain of mills throughout the Carolinas.

Bessie Crater will pursue her first plan of life, and after finishing her course at Jefferson Medical College, will establish a sanitorium in Statesville.

William Godby will successfully put across several huge engineering schemes. He will combat life's problems single handed and make good.

In later years we shall hear of many banking rules which will safeguard the wealth of the nation. These changes will be wrought by Ralph Davis, who stands at the head of the most important banking system in America, the Federal Reserve Bank.

Thus our destinies are confirmed, but as to whether they are authentic or not, I refuse to commit myself—only the passing years can tell.

TEACHER TRAINING DEPARTMENT

Under the direction of the State Department of Education a course for the training of teachers was established in the Harmony Farm Life School in the fall of 1923. This course is designed to give training to those who wish to be better fitted for the work of teaching. It appeals especially to teachers and students who are not financially able to go to college. However, the credit received for the year's work is equal to that for a year of college work. Only graduates of a standard high school or holders of an Elementary B certificate are eligible for entrance. Graduates from the department receive an Elementary A certificate.

The course is comprised of Pedagogy, Observation and Practice Teaching, English, History, Arithmetic, Geography, Public School Music, Writing, Drawing, Industrial Arts, and Physical Education.

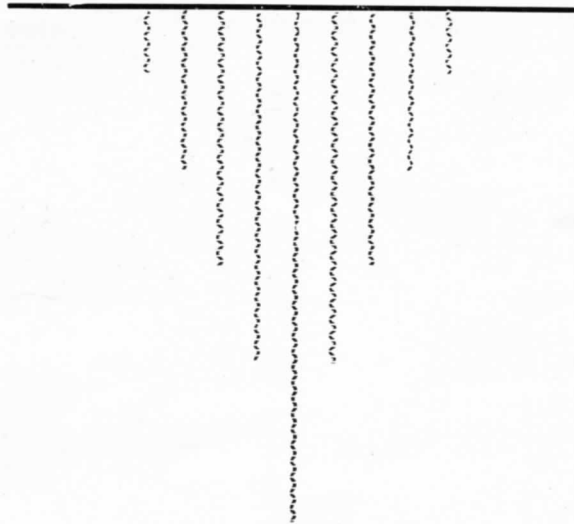

Many of the Teacher Training graduates have availed themselves of the opportunity to continue their work at East Carolina Teacher's College, Appalachian Training School, and at Cullowhee Normal School. These institutions are granted credit for the work done in the Teacher Training department. In this way, former students from the department may complete the Two-Year department course in either of these institutions in one year and one summer. Graduation from these institutions will entitle students to Primary or Grammar Grade certificate. Needless to say, this is a wonderful opportunity for ambitious students who are not able to enter college when they finish high school.

For three years the work has been under the able direction of Miss Maurie Simpson, believed to be the most capable instructor in Teacher Training in the state.

The first class (1923-24) was made up of the following students: Turner Crater, Reba Douglas, Mary Foster, Cloyce Hunter, Dessie Johnston, Pauline Massey, Blanche Poindexter, Leitha Privette, Nova Shore, Flora Thomas, Lucy Tharpe, Roxie Wall, Gertrude Watts.

In 1924-25 the following students finished the course: Tabitha Burgess, Blanche Gaither, Thelma Garris, Lois Heath, Georgia King, Edith Oakley, Eula Reavis, Irene Sloan, Velma Taylor, Margaret Woodside.

JUNIOR CLASS HISTORY

On September tenth nineteen-hundred twenty-three we met in the administration building of Harmony High School as a band of raw freshmen. As we were just beginning high school we had some difficulty in learning the high school routine. We met soon afterwards in a special meeting and organized our class, electing Ina Reid president. We spent a successful year learning the first steps in high school with Miss Foda White, now Mrs. Weisner, directing us. We had in number about forty members. Virgil Fox, from our class, won distinction on the track team. The chief event of the year was the day we spent at Yellow Jacket Lake.

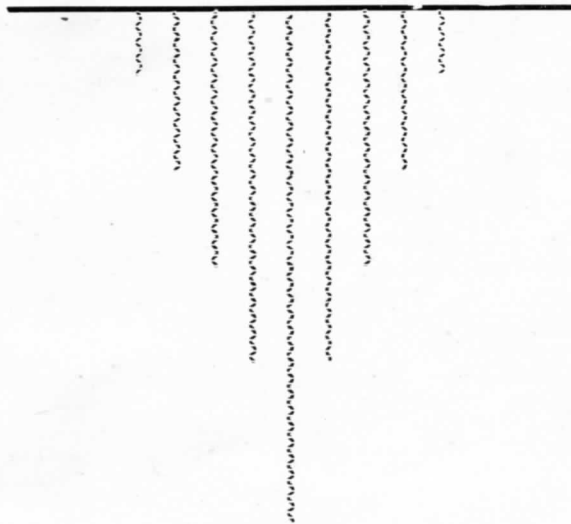

We met the next September fifteenth, no longer as freshies, but as giddy sophomores. Several of our old members failed to return but new ones took their places. We elected Mary Cooper, president and Mrs. Weisner, faculty director. Ina Reid was our distinguished member winning fame on the county debating team. We gave one play aided by the freshman class.

We met again on September fourteenth nineteen-hundred twenty-five. Several new members were added to our class and several old ones failed to return. Our class numbered forty-six. At our first meeting we started off right by electing Ona Rea Current, president, Mabel Weber, vice-president, Ina Reid, secretary and treasurer. Our class is being directed by Mr. C. F. Kyles. Our honorary members are John Weaver, member of triangular debating team, and Elsie Sills, our basketball star. As the year is still unfinished we do not know what it still holds for us. We are looking forward to the time when we shall be hailed as Seniors and to the time when we shall receive our "sheepskin" to go out into the world to fill our position.

We are grateful to all the teachers and friends who have helped us along the way. The encouragement and the advice given us by them will be remembered through our lives and will be a great asset to us. When we have finished our preparatory training and have gone out to work let us hope that every member of our beloved class of '27 will be a builder—a builder who will build something that will endure after they are forgotten. We wish every member a long happy life.

SOPHOMORE CLASS HISTORY.

Our fourteenth of September, 1924, the students assembled in the auditorium of the Harmony High School for the opening of the school year.

Immediately after the opening exercises, we, the class of 1928, thirty-six in number, under the direction of Miss Mary Lackey came together for the beginning of our high school work. We were directed to the various class rooms, where we received our assignments. On the following Friday, the class was called together for the purpose of organizing the class. The following officers were elected: Clarice Williams, president; Helen Davis, vice-president; and Ollie Shaver, secretary. We found our work very different from what we had experienced in our previous school life, and many amusing incidents were connected with our entrance into high school. Very soon, however, we learned what was expected of us, and settled down for four years study.

Our class presented its first play at Easter time when "Ann What's Her Name" was given. It was a great success considering the fact that it was our first attempt.

Late in April our class, chaperoned by Miss Lackey, went to Roaring Gap on a picnic. We spent an enjoyable day viewing the mountains of our state, and returned to resume our work with renewed energy.

The closing of school found us anxiously awaiting the time when we would again meet for another year of school.

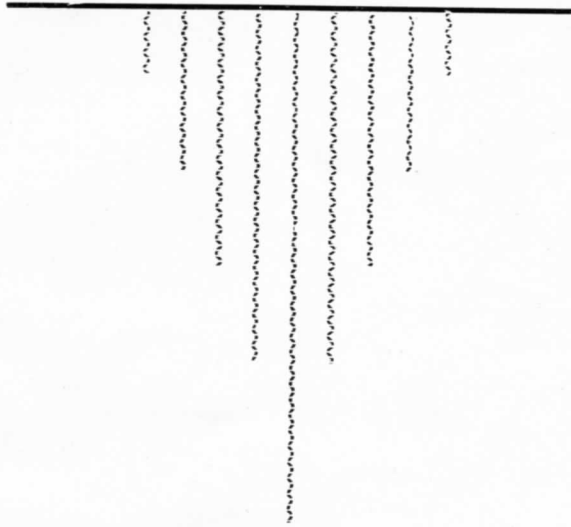

When we assembled for our second year of high school, we found that some of our classmates had dropped out. Others came in, however, and our class roll increased from thirty-six to sixty. We took pride in the fact that we were no longer freshmen but sophomores. In the election of class officers Ida Daniels was elected president; Bertha Danils, vice-president; and Julia Neill Hix, secretary. Yellow and white were chosen as class colors, and the yellow rose as class flower.

On the sixteenth of December, 1925, we were entertained at the Home Economics Building, of this school, by Miss Lackey. We had a very enjoyable evening.

During the month of April, 1926, we gave the play "Wrecking Robert's Budget," which was very successful.

Our class has also furnished its share of athletes of whom we are all proud.

THE BASKET-BALL SEASON

Both boys and girls had the best teams in years despite several disasterous defeats and the loss of the Iredell County championships. The boys played nineteen games and won twelve of them. The most outstanding victories were won over Statesville and Mooresville on the home court. The total points scored by the Harmony boys amounted to 437 compared to 362 by their opponents. The girls won seven of their ten contests, the most notable victories being the two over Barium Springs.

The records of the two teams are given below:

BASE-BALL TEAM 1926

Standing, left to right, G. Wright Lankford, (coach and manager); W. V. Feilder, (coach); Albert McLain, left field; Walter Bohannon, third base; Charlie Gaither, right field; Kenneth Watts, outfielder; Ralph Reid, third base and outfield.

Kneeling, left to right, Glenn Howard, first base, Robert Little, short stop; Hal Brown, pitcher; Jerry Moore, catcher; Pascal Morrison, centerfield; Richard Williams, pitcher; and J. Mack Sills, the mascot, is sitting with the bats.

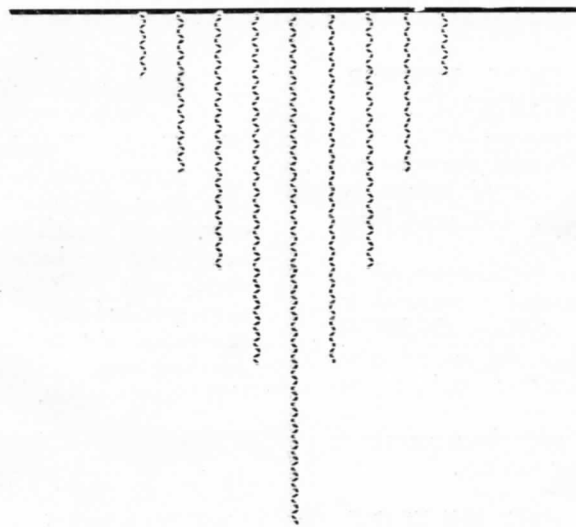

"The Harmonian" goes to press before the baseball season is finished and a complete record of the year will, of course, have to be included in next year's annual when the class of '27 will try her hand at producing a book similar to this one. But one thing stands out already in the record of the High school nine this year. Harmony had the pleasure of defeating Union Grove in three out of three baseball games in the early-season contests. This high school, the powerful new rival on the north, won the Iredell county championship in basketball, but Harmony went down smiling and gritting to the last.

The athletic situation at Harmony looks particularly bright. The boys and girls who have had to bear the financial burdens in days gone by will not be so pressed for funds now, for the gymnasium is completed and charges can be made for basketball games. These funds should bear the expenses of basketball. The newly enclosed baseball field also makes it possible for charges to be made for the baseball games and these funds should pay the expenses in this branch of sport.

Harmony is to have a football team in the fall of 1926. This is considered a great step forward in athletics also.

As the curtain rings down on the athletic year, Harmony will see the departure of one of her best athletes of all time, Hal Brown, star center on the basketball team, and pitcher and utility man on the baseball team. With him will go several other men only slightly less brilliant in their work,—Little, McLain, Howard, and Davis.

SALES AND SERVICE

The HARMONIAN

In the planning and production of this Annual it has been a pleasure to work with the Class of 1925-26. We believe that we have been of real service to you, and we appreciate the opportunity. We also believe that our mutual efforts to produce a worthy Annual have not been in vain.

As you go out into Life we can but wish for your success and happiness. Your successors of 1926-27 will find us equally able and willing to share their problems as they take up your work. We hope to know them as well as we have known you. We welcome all inquiries and we are always ready to serve.
